# The Door

Penning by Blinky Comix

There was a back staircase.  
One that was supposed to get you into the adjoining building.

You could see the light spill from a distant door

But when the lights were off- the door never even appeared to be there.

One night an artist tried to sneak into the gallery. The door was no where to be found.

Would you like to try the stairway?

It's not far.

It's just on the other side of the door.

The room was cool and dark.

Suddenly a flash of light tore across the floor.

Startled- she tried to run.

As sudden as the lights flashed on- they went out again.

Unsure of the direction- she lost her footing.

She was sure there was someone in the area with her.

Another flash and she lost consciousness.

Some say she is still in the bowels of the building- mad. Locked in a small room.

She screams- but no one hears.

Another great artist- never heard from again.
